

OEM MAXNIBP[®] - Trusted Brand

MAXNIBP

For over 25 years, MAXNIBP has been the non-invasive blood pressure brand trusted by leading medical device manufacturers around the world.

Medical device manufacturers rely on CASMED's proven NIBP technology to meet their requirements for product accuracy, reliability and performance.

From our genesis, CASMED's focus has been to provide fast, accurate and reliable non-invasive blood pressure measurement for the most challenging clinical environments and patient populations.

[MAXNIBP - the Choice is Simple]

CASMED's advanced signal processing technology enables multiple clinical applications from a single module platform thereby reducing project timelines and development costs by simplifying product selection and reducing module inventory.
